## CANDIDATE STATEMENT

I apply as candidate for the EFJ Vice-Presidency and EFJ Steering Committee in Tallinn GM elections, and request your support for the intense work that expected to me in the next three years, if I am elected. I wish you to put your trust in me. I have a vast experience in the syndical organizations since 20 years ago, as well as a still active professional journalist.

The last three years I have developed a job as an elected member of the EFJ SC. Was an interesting experience. Next time, I decided to intensify efforts in European colleagues, because it is a necessity. Under three points of view:

1º) To face the journalism challenges in Europe, we need a newest EFJ that is more committed to reality. An EFJ less bureaucratic and closed in on itself. **More active and present where the problems are and where the people suffer: newsroom media, streets, demonstrations...** It is true that in these years successes have been achieved in areas such as training, copyright, or campaigns in favor of freedom of expression. But it's not enough.

2º) I'm confident that we need to take more influence in group –élites- of decisions. Not only in political way, but in intelectual, economics, universitarian, etc..... we share same interests but as a EFJ **we have to target the solidarity**. We need to achieve knowledge and experiences for other social groups... and..the final target is: **Changes in European mentality in favour of Journalism.**

3º) Motivative **youths** and **women** journalists. Give entusiasm in both groups. Involving them, and everyone, in favour of tecnhological changes for medias, (TIC. Investigation & Develop & Innovation) without lossing our principles of journalism.: Solidarity, Independence, Professionalism.....searching always THE TRUTH.

That is why I ask for your support for my candidacy for the EFJ Vice Presidency. I am very supportive of the unity in the EFJ and of a greater and reinforce collaboration with the IFJ. I do not believe in sides or blocks neither geographic (North / South), economic (Rich / Poor), political (Left / Right) nature.

We are all the same: JOURNALISTS
